## Dear Ms/Mr.

After I saw the announcement, you are looking for candidates to fulfill some position in your company, I am very excited to apply. I am writing this letter to apply for a position of Programmer. I strongly believe that my experience and qualifications are appropriate for your company.

I am a student majoring in Information Technology at National University of Management, known as (NUM). I recently graduated with a bachelor's degree. I am interested in your company based on a good reputation. I have experience more than 2 years in software development. I want to work as an employee for your company to improve myself with coding skills, and it motivated me to be more curious. Thus, I guarantee that I have great opportunity to be work as Programmer.

I am a fast learner and I have high capacity have good time management and always finish work before deadline. I am a hard worker; I always try my best to achieve task efficiency with a good productive work. I am a friendly person that I always good communication with other worker and throughout my commitment and willingness to learn, I promise you to work more harder hard, complete all assigned tasks productively. I believe that my abilities fulfill your company's requirement.

Thank you for your time of reviewing my cover letter I hope my ability is acquire your job requirement that I have opportunity to be work at your company. I appreciate your time and your consideration.

**Yours faithfully,**

**MENG MAKLENG**
